

Vision

To be a global steel company and one of the most profitable in the industry.

Mission

Gerdau is a steelmaker that seeks to satisfy the needs of its customers and create value for shareholders and is committed to personal achievement and the sustainable development of society.

Gerdau is the leading long steel producer in the Americas. Beginning its growth trajectory over a century ago, today Gerdau is one of the main consolidators of the global steel industry. Gerdau employees receive regular training and are well prepared to face new challenges and run the operations in the Americas, Europe and Asia. Gerdau produces common and special long steel and flat steel based primarily on the electric-arc furnace and mini-mill production process, and its products serve the construction, manufacturing, automotive and agribusiness sectors. Gerdau stock is traded on the São Paulo, New York, Toronto, Madrid and Lima stock exchanges and has a base of more than 140,000 shareholders.

Gerdau S.A. reports its Consolidated Financial Statements in accordance with the International Financial Reporting Standards (IFRS) established by the International Accounting Standards Board (IASB) and ratified by CVM Instruction 457 of July 13, 2007.

Business Operations

The information in this report is presented in accordance with Gerdau's corporate governance, as follows:

- Brazil (Brazil BO) – includes the Brazil operations, except specialty steel;
- North America (North America BO) – includes all North American operations, except Mexico and specialty steel;
- Latin America (Latin America BO) – includes all Latin American operations, except Brazil;
- Specialty Steel (Specialty Steel BO) – includes the specialty steel operations in Brazil, Spain, the United States and India.

Production

Crude Steel

- On a **consolidated basis**, Gerdau's crude steel production was 4.7 million tonnes in 2Q10, up 52% from the same period last year. The Company increased production in line with the recoveries observed in each of its business operations. The **Brazil BO** was the highlight in this comparison period, with production growth of 53%, which was due to the resumption of operations of Blast Furnace 1 at the Ouro Branco unit in Minas Gerais as of July 2009, which has annual production capacity of 3 million tonnes and focuses on the production of semi-finished products for the export market. At the **Specialty Steel BO**, government programs targeting the automotive industry, improvements in demand and financial credit access, supported an increase of 123% in crude steel production, with a improvement in all operational regions (Brazil, United States and Spain). The **North America BO** increased its crude steel production by 36% to adjust its inventories and meet the higher demand in 2Q10. At the **Latin America BO**, the 22% growth in crude steel production was also supported by the rebuilding of inventories and by the higher demand in the comparison period. At the Peru unit, a new electric-arc furnace was installed, which started operating normally since July, 2010, substituting the two previous furnaces. Besides a new electric-arc furnace was installed in this unit a new dedusting system in order to protect the air.
- In the comparison of 2Q10 with 1Q10, **consolidated production** of crude steel increased 8%, led by the **Specialty Steel and Brazil BOs**, which registered growth of 15% and 6%, respectively, driven primarily by the improvement in demand observed in the markets of Brazil and Spain. At the **Latin America BO**, a highlight was the production improvement in Chile, where all Gerdau units resumed normalized operations.

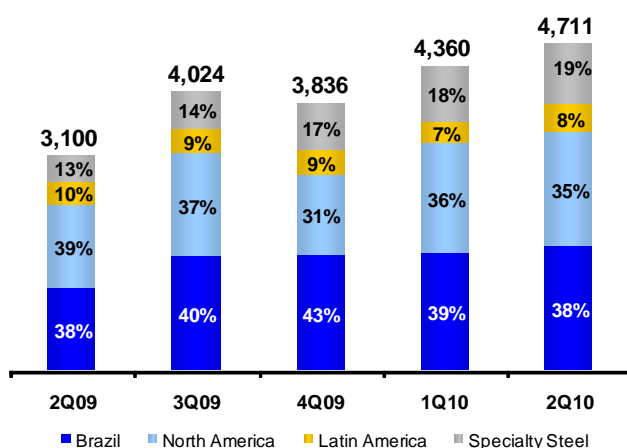

Rolled Products

- **Consolidated production** of rolled products was 3.9 million tonnes in 2Q10, up 40% from the same period last year. The highlight in the period was the **Specialty Steel BO**, which more than doubled its production to 809,000 tonnes. The **Brazil** and **North America BOs** also posted recoveries in the period, with increases of 37% and 27%, respectively.
- In relation to 1Q10, **rolled products production** increased by 9%, led by the **Specialty Steel BO**, which expanded production by 17% in 2Q10, in line with the growth in crude steel output.

Shipments

- Consolidated Shipments** totaled 4.4 million tonnes in 2Q10, 30% higher than in 2Q09, a period that was severely affected by the global crisis. The **Brazil BO** contributed the most to this recovery, with steel shipments growth of 38%, driven primarily by shipments to the domestic market. Industrial production, which posted growth of 16% in the first half 2010 in relation to the same period last year, played a key role in supporting Gerdaul's sales in Brazil. The construction sector continues to be supported by strong demand growth in the Brazilian market. Shipments of ready-to-use steel products, such as fabricated rebar for construction, made important contributions to this recovery and already represent around 30% of shipments to the construction industry. Brazilian exports remained virtually in line with 2Q09. Despite the decline in exports of finished products, which were redirected to the domestic market, exports of semi-finished products increased, reflecting the resumption of production at Blast Furnace 1 at the Ouro Branco unit in Minas Gerais, as mentioned earlier. At the **North America BO**, where shipments grew 17%, demand increased in the period, partially related to energy projects (wind, nuclear and oil). The **Specialty Steel BO** recorded shipments growth of 73%, reflecting the series of monthly records for vehicle production in Brazil and the continued solid demand in the U.S. automotive industry during 2010. The **Latin America BO**, where sales volume were affected by the crisis to a lesser extent, posted shipments growth of 6% in the period, led by the Chile and Argentina units.
- In relation to 1Q10, **consolidated shipments** grew by 8% in the quarter.

Results

Net Sales

- **Consolidated net sales** totaled R\$ 8.3 billion in 2Q10, up 30% from 2Q09, due to the increased shipments. The **Brazil BO** recorded net sales of R\$ 3.3 billion, 37% higher than in 2Q09, reflecting the 38% upturn in shipments. At the **North America BO**, net sales was R\$ 2.3 billion in 2Q10, 10% more than in 2Q09. This improvement reflects the growth of 17% in shipments, which was partially offset by the 6% reduction in net sales per ton, given the appreciation of 14% in the Brazilian real against the U.S. dollar between the two periods. At the **Latin America BO**, net sales increased 13% from 2Q09, supported by the higher shipments and better prices in 2Q10. The **Specialty Steel BO** recorded an increase of 64% in net sales in the comparison period due to the higher shipments.
- In relation to 1Q10, the 17% growth in **consolidated net sales** was basically due to the increases of 8% in both shipments and net sales per ton sold in the period. The highlights in the periods were the **Brazil** and **Specialty Steel BOs**, which recorded increases of 15% and 24% in net sales, respectively, due to the higher shipments and prices in the comparison period.

1- In the comparison 1H10 x 1H09, there was an increase of 17%, in US Dollar.

Cost of Goods Sold and Gross Margin

- On a **consolidated basis**, cost of goods sold increased 15% in 2Q10, compared with growth of 30% in net sales in the same period. As a result, gross margin increased from 12% in 2Q09 to 22% in 2Q10. At the **Brazil BO**, the higher dilution of fixed costs led to gross margin expansion from 27% in 2Q09 to 29% in 2Q10. The **North America BO** posted an increase in gross margin from 6% in 2Q09 to 11% in 2Q10, due to the higher shipments and subsequent greater dilution of fixed costs. At the **Latin America BO**, gross margin improved from -3% in 2Q09 to +21% in 2Q10, which is explained by the efforts to reduce costs made over the course of 2009, the higher prices practiced and the stronger shipments. At the **Specialty Steel BO**, gross margin rose from zero in 2Q09 to 24% in 2Q10, primarily due to the higher dilution of fixed costs and the strong growth in shipments.
- **Consolidated gross margin** improved from 20% in 1Q10 to 22% in 2Q10, supported by the growing recovery in operations, which was led by the **Latin America BO**, where gross margin expanded from 14% in 1Q10 to 21% in 2Q10.

Selling, General and Administrative Expenses

- Selling, general and administrative expenses as percentage of net sales decreased from 9% in 1Q10 to 7% in 2Q10, despite the nominal increase of 10% in these expenses in the comparison period.

Equity Income

- Companies in which Gerdau has shared control or joint ventures are not consolidated and their results are evaluated based on the equity method.
- Considering the respective equity interests, these companies sold 282,000 tonnes of steel products in the second quarter, a growth of 40% from 2Q09, and generated net sales revenue of R\$ 419 million.
- Based on these companies' results, equity income was a gain of R\$ 46 million in 2Q10, versus a loss of R\$ 56 million in 2Q09.

EBITDA

- **Consolidated EBITDA** (earnings before interest, tax, depreciation, amortization and losses from asset impairment), also known as operating cash flow, was R\$ 1.7 billion in 2Q10, versus R\$ 595 million in 2Q09, reflecting the higher shipments and better equity income from shared-control companies and joint ventures. EBITDA margin in the period was 21%, versus 9% in 2Q09.

¹Non-accounting measure adopted by the Company

²Accounting measure published in the consolidated Income Statements

- In 2Q10, the **Brazil BO** accounted for 51% of consolidated EBITDA in the period, or R\$ 876 million, up 53% from 2Q09, which was explained by the higher shipments in the period, which resulted in greater dilution of fixed costs. The **North America BO** recorded EBITDA of R\$ 249 million in 2Q10 (15% of consolidated EBITDA), more than double the figure recorded in 2Q09, reflecting the higher shipments, which resulted in greater dilution of fixed costs and expenses. The **Latin America BO** recorded EBITDA of R\$ 191 million in 2Q10 (11% of consolidated EBITDA), versus the EBITDA loss of R\$ 95 million in 2Q09, basically explained by the higher prices practiced and lower costs in the period. The **Specialty Steel BO** posted EBITDA of R\$ 404 million in 2Q10 (23% of consolidated EBITDA), compared with the EBITDA loss of R\$ 6 million in 2Q09, due to the higher shipments, which led to greater dilution of fixed costs and lower expenses.

- Consolidated** EBITDA rose 23%, from R\$ 1.4 billion in 1Q10 to R\$ 1.7 billion in 2Q10. The improvement reflects the higher EBITDA in all business operations, especially the **Specialty Steel** and **Latin America BOs**. **Consolidated** EBITDA margin improved from 20% to 21%.

Financial Result

- The consolidated financial result in 2Q10 was an expense of R\$ 255 million, which compares with the gain of R\$ 517 million in 2Q09. This variation is basically due to the depreciation of 1% in the Brazilian real against the U.S. dollar in the quarter (negative impact of R\$ 26 million), compared with the appreciation of 16% in 2Q09 (positive impact of R\$ 696 million), which impacted a portion of the loans denominated in foreign currency contracted by the companies in Brazil.

Financial result (R\$ million)	2nd quarter	2nd quarter	1st quarter	1st Half	1st Half
	2010	2009	2010	2010	2009

Gains (losses) from hedge operations, net	1	17	1	2	(16)
Financial result	(255)	517	(247)	(502)	339

- Note that of the total foreign-currency debt of US\$ 2.9 billion contracted by companies in Brazil as of June 30, 2010, US\$ 1.5 billion is linked to the acquisition of companies abroad, whose foreign exchange variation is booked directly under shareholders' Equity, in accordance with IFRS. For the remaining US\$ 1.4 billion, the foreign exchange gains or losses are recorded on the income statement.

Net Income

- Consolidated net income** in 2Q10 was R\$ 856 million, versus a loss of R\$ 329 million in 2Q09. Note that net income in the quarter was adversely affected by losses from asset impairment in the amount of R\$ 797 million. Excluding this effect, net income in 2Q09 would be R\$ 467 million.

Net Income (R\$ million)	2nd quarter	2nd quarter	Variation	1st quarter	1st Half	1st Half	Variation

Net Income	856	(329)	-	573	1,429	(294)	-

- At the **Brazil BO**, net income was R\$ 412 million in 2Q10, 36% lower than in 2Q09. The result was basically due to the foreign exchange loss of R\$ 39 million in 2Q10, compared with the exchange gain of R\$ 622 million in 2Q09. The other business operations posted positive results in 2Q10, reversing the net losses posted in 2Q09.

- In relation to 1Q10, **consolidated** net income increased 49%, primarily driven by the better operational result in all business operations in the period.

Dividends

- The companies Metalúrgica Gerdau S.A. and Gerdau S.A. approved, based on the results recorded in 2Q10, the prepayment of the minimum mandatory dividends for fiscal year 2010, as shown below:

- Metalúrgica Gerdau S.A.
 - R\$ 89 million (R\$ 0.22 per share)
 - Payment on August 26, 2010
 - Record date on August 16, 2010 (ex-dividends as of August 17)
- Gerdau S.A.
 - R\$ 199 million (R\$ 0.14 per share)
 - Payment on August 26, 2010
 - Record date on August 16, 2010 (ex-dividends as of August 17)

Financial Cycle and Working Capital

The financial cycle (working capital divided by daily net sales in the quarter) fell to 92 days, 13 less than in June 2009. In relation to December 2009, the cycle remained virtually stable, with proportional increases in net sales and working capital, despite the growth of R\$ 1.8 billion in the latter due to the expansion of operations, which increased working capital to R\$ 8.4 billion in June 2010.

- On June 30, the composition of gross debt was 21% in Brazilian real, 36% in foreign currency contracted by companies in Brazil and 43% in a variety of currencies contracted by subsidiaries abroad.
- On June 30, 2010, the weighted average nominal cost of gross debt was 8% for the amount denominated in Brazilian real, 7% plus foreign-exchange variation for the amount denominated in USD contracted by companies in Brazil and 4% for the amount contracted by the subsidiaries abroad.

Gross Debt
(R\$ billion)

- On June 30, the debt amortization schedule, including debentures, was as follows:

Short-term	R\$ million
3rd quarter 2010	506
4th quarter 2010	394
1st quarter 2011	218
2nd quarter 2011	365
Total	1,483
Long-term	R\$ million
2011	308
2012	3,236
2013	1,965
2014	710
2015 and after	7,051
Total	13,270

- Gerdaul's main debt indicators at the close of June showed improvement, given the stability in the debt position and the higher operating cash flow in the last 12 months (EBITDA). The gross debt/EBITDA ratio declined from 3.8 times on December 31, 2009 to 2.6 times on June 30, 2010, while the net debt/EBITDA ratio fell from 2.5 times to 1.8 times in the same comparison period.

Indicators	June 30, 2010	Dec. 31, 2009
Gross debt / Total capitalization ¹	39%	40%
Net debt / Total capitalization ²	31%	31%
Gross debt / EBITDA ³	2.6x	3.8x
Net debt / EBITDA ³	1.8x	2.5x

1) Total Capitalization = Shareholders' Equity + Gross Debt

2) Total Capitalization = Shareholders' Equity + Net Debt

Proposal for the acquisition of minority interest in Gerdau Ameristeel

- On June 29, Gerdau S.A. and Gerdau Ameristeel Corporation signed a final Arrangement Agreement ("Agreement") with the objective of delisting Gerdau Ameristeel, offering a price of US\$ 11.00 cash per common share, as announced on June 2. The transaction, which is valued at US\$ 1.6 billion, is being implemented under the scope of the Plan of Arrangement and was approved unanimously by Gerdau Ameristeel's Board of Directors, as per the report and unanimous recommendation of the Special Committee of independent directors. This report determined that the Agreement is fair for the Company's minority shareholders and as such recommended that the minority shareholders of Gerdau Ameristeel vote in favor of the transaction. The Special Shareholders Meeting, which will address the Agreement, is scheduled for August 10, 2010, subject to final approval of documents by North American capital market regulatory authorities, and will require approval of a simple majority of votes submitted by the minority shareholders. Additionally, the Agreement requires approval by the Superior Court of Ontario.
- On July 28, Gerdau S.A. and Gerdau Ameristeel Corporation announced that both ISS Proxy Advisory Services (ISS) and Glass Lewis & Co., leading proxy advisory firms who provide advice and voting recommendations to shareholders, have each published a report recommending that their subscribers vote 'FOR' the resolution approving the plan of arrangement mentioned previously. Both reports point to, among other things, the significant premium being provided to the minority shareholders, as well as the unanimous support of the Gerdau Ameristeel Corporation special committee of independent directors, in concluding that minority shareholders should support the transaction.
